SATHANA S M

AI&DataScience Enthusiast | UI/UX & Analytics-Oriented Developer
Coimbatore, India | Contact: +91 9442612804 | Email: smsathana12@gmail.com
LinkedIn: sathana-sm | GitHub: Sathana.git

CAREER OBJECTIVE

AI and design-focused Computer Science graduate seeking entry-level roles in Artificial Intelligence, Data Analytics, and Software Development. Skilled in Python, Machine Learning, and UI/UX design to deliver scalable, data-driven solutions.

TECHNICAL SKILLS

Python, JavaScript | HTML, CSS | Tableau, SQL, DBMS | Figma, Canva | DSA, OOPS | ML, DL, NLP | GitHub,Jupyter Notebook, VS Code, Google Colab |

PROFESSIONAL EXPERIENCE

Data Science & Machine Learning Intern – Zaalima Development Pvt. Ltd. (Dec 2025 – Feb 2026)

- Built FactoryGuard AI, an XGBoost-based predictive maintenance model optimized for PR-AUC and deployed via Flask with SHAP explainability.
- Developed LexiScan Auto, a Dockerized OCR-NLP (NER) system for legal PDF entity extraction exposed via REST API.

Artificial Intelligence Intern – Codec Technologies (Jun 2025 – Jul 2025)

- Developed and deployed a sentiment-based recommender using NLP and ML, improving accuracy by 20%.
- Optimized preprocessing and evaluation pipelines; implemented Streamlit interface.

Data Science Intern – Nativeva Internship Program (Jul 2024 – Aug 2024)

- Built CNN model achieving 92% accuracy for potato disease classification.
- Applied data augmentation and deployed model for practical use.

Human Resource Intern – Corizo (Oct 2023 – Nov 2023)

- Managed recruitment and onboarding for 50+ candidates, improving hiring efficiency by 30% through HR analytics.

ACADEMIC PROJECTS

Hire Ease – AI Recruitment System

- Developed an NLP-based resume screening system using Python, TF-IDF, and skill-matching algorithms for automated candidate shortlisting.
- Reduced manual screening effort by 40% and improved recruitment efficiency through structured resume analysis.

Neethivaan – AI Legal Assistant

- Built an NLP-powered legal assistant integrating text classification, NER, and summarization for document analysis and research.
- Improved legal document accessibility and processing speed through automated information extraction.

CyberLOCK – Data Authentication System

- Designed a timestamp-based authentication system to prevent replay attacks and ensure data integrity.

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft Azure AI Fundamentals
- Generative AI – Infosys Springboard
- Python & SQL – Scaler
- UI/UX Workshop – GUVI
- IJREAM Journal Publication | AIML Conference Presenter
- AWS Certified AI Practitioner – Amazon Web Services - April 2026 – April 2029

EDUCATION

B.E. Computer Science and Design – SNS College of Engineering (2022–2026)
CGPA: 8.61
HSC – ISC (83%) | The Little Kingdom School (2020–2022)
SSLC – ICSE (80.3%) | The Little Kingdom School (2019)

SKILLS & LANGUAGES

Communication | Problem Solving | Teamwork | Adaptability
English (Proficient) | German (Intermediate) | Tamil (Native)
